

# Repair & Share Program

---

Do you have a power wheelchair that you are no longer using?

Would you like to help someone gain their independence?

Please consider the *Repair & Share Program* if you have a power wheelchair that you would like to donate (**functioning or non-functioning**), and call Resources for Independence for more information.

**TOLL FREE: 1-800-244-2274**

*Repair & Share Program* is a loan and recycle program that will enable people with disabilities who are in need of power wheelchairs to live independently. Resources for Independence is collaborating with G7 Medical Services, a local supplier of medical equipment, to repair power wheelchairs donated to our agency. These chairs will be used to aid people with disabilities, maximizing their independence by loaning the chairs on a temporary basis while they find the means of getting a power wheelchair of their own.

**We empower people with disabilities to live as independently as possible in the community.**
